TIME

BETTER CALENDAR

1 INSTALL IT

- **iPhone:** open it in Safari → Share → **Add to Home Screen**.
- **Android:** open it in Chrome → menu ⋮ → **Install app**.
- **Computer: Install app** button in Chrome or Edge.

2 ACTIVATE IT

Open the installed app and enter your **purchase code** once. It works on up to 4 devices.

3 GET STARTED

You will see a **sample month** so you know how it works. Whenever you like: **Settings** → **Delete the sample and start**.

4 TURN ON YOUR ALERTS

Settings → **Reminders** → **Turn on**. It alerts you at the time of your activity even when the app is closed. On iPhone it works from the installed app.

WHAT YOU CAN DO

- **Monthly calendar** with seasons, goals, categories, photos and notes for each day.
- **Activities** with date, time and reminder.
- **My Vision:** future goals, travel, income, projects, ideas and inspiration.
- **Important dates:** holidays and your birthdays and anniversaries, every year.
- **Gallery** with all your photos in one place.

YOUR DATA IS SAFE

Everything you write and your photos are stored **on your phone**. To move it to another device use **Sync my devices** or **Download backup**, in Settings. Keep your sync code safe: it works like a password.

IF SOMETHING IS NOT WORKING

- Not getting alerts? Check that notifications are allowed for the app in your phone settings.
- Code not working? Copy it from your purchase page and paste it, without extra spaces.
